Summary

Computer Science graduate with hands-on experience in front-end development, WordPress, Zoho Creator/CRM, and software customization. Skilled in problem-solving, clean code practices, and guiding others through technical challenges. Eager to contribute my knowledge and practical experience to support students in learning and applying core computer science concepts.

Experience

FAIRCHANCE FOR CRM

Junior Zoho Developer

Wahdat Road, Lahore

08/2025 - 09/2025

- Designed and customized applications in Zoho Creator to streamline business processes.
- Developed and optimized Deluge scripts for workflows, automation, and custom functions.
- Integrated Zoho CRM with other Zoho apps and third-party platforms to improve data flow.
- Built dashboards, reports, and role-based access controls for efficient decision-making.

GAO Tek

Wordpress Developer - Internee

Remote - New York, USA

07/2025 - 08/2025

- Customized and configured WordPress themes to meet project requirements.
- Optimized website performance for speed and reliability.
- Resolved bugs and implemented clean, efficient solutions to enhance user experience.

Prodigy India Roleplay

Graphic Designer

Remote - India

10/2024 - Present

Designed modern and custom UI elements, posters, and branding assets for a top-ranked GTA community server in India. Created numerous logos and promotional materials for in-game events, helping establish a strong and recognizable visual identity.

Charm City RolePlay

Senior FiveM Server Developer

Remote - United States

09/2023 - 07/2024

Configuring and integrating scripts into game servers, optimizing performance, and managing server hosting. Skilled in building and maintaining FiveM servers from scratch, with hands-on experience in bug fixing, script development, and customization. Worked extensively with US-based roleplay communities to deliver smooth and immersive gameplay experiences
